We recommend sealing of all natural stone products.

Parisian Blue Limestone

Description

Smooth cool blue-grey when dry. Dark, sexy and captivating when wet. A Limestone tile with such a mysterious and changeable beauty we begin to obsess over her. Edgy and stylish. So Parisian darling!

Why choose Parisian Blue Limestone?

Parisian Blue Limestone provides a cool luxurious tone and finish with natural variation from tile to tile. The cool blues and greys are popular with current colour trends. Being a limestone tile you will see veins which are also an inherent property of this natural stone tile. Natural colour and texture variations hide marks like dirt and leaves. It is cool underfoot and offers moderate slip resistance. It is accurately sized and is easy to lay. It is a relatively soft stone so it is susceptible to scratching with hard items such as furniture.

Finish

Sandblasted

Maintenance

Requires sealing with a penetrating sealer to make cleaning easier. Use a pH neutral cleaner such as detergent and avoid acids in cleaning. Seal with a highlighting sealer to darken and increase contrast.

Slip Rating (Wet Pendulum)

This tile has a P5 slip rating in the (V) pendulum classification which is the highest wet pendulum rating available under the current standards. (For pool surrounds, a minimum of P4 is required.)
