Sandwave Granite

Description

Demure and elegant but with depth and character. A creamy-grey muted base elevates classy dark grey marbled waves. Demands your attention but with style and sophistication.

Why Choose Sandwave Granite?

Sandwave Granite has a medium amount of variation in colour and veining from tile to tile. It is an excellent choice for pool surrounds and landscaping. It is a dense and tough stone that will look great for many years to come. It is a non-slip tile. Its cool tone offers an up market, sophisticated look. Grey is a neutral colour so you can mix and match this product with any colour scheme and achieve the look you desire. It is accurately sized, cuts well and is easy to lay. The tiles contain a small amount of mica which sparkles.

Finish

Flamed

Maintenance

Minimal. Seal with penetrating sealer to make cleaning easier.

Slip Rating (Wet Pendulum)

This tile has a P5 slip rating in the (V) pendulum classification which is the highest wet pendulum rating available under the current standards. (For pool surrounds, a minimum of P4 is required.)
