# Silver Marble

## Description

The ultimate in luxury, Silver Marble is mostly a warm-toned, silver-grey coloured stone featuring exquisite darker grey waves. Its elegant natural variation is both, subtle, and eye catching. The perfect choice for those who want a lavish natural stone with a refined and formal finish.

## Why choose Silver Marble?

Marble is a beautiful, regal stone. The natural tonal variation between the tiles looks great in both traditional and modern settings. Marble can be used both outdoors and indoors. It is very cool underfoot, so ideal to use in any climate. The honed finish is fabulous to walk and sit on. The natural colour variation hides marks very effectively. Marble is accurately sized, cuts well and is easy to lay. Please note: If laying Silver Marble around a pool, in order to increase slip resistance, we recommend you seek professional advice regarding a micro-etched surface finish.

## Finish

Honed

## Maintenance

Requires sealing. Seal with penetrating sealer to make cleaning easier. Use pH neutral cleaners. Do not use acid to clean.

## Slip Rating (Wet Pendulum)

P4 Slip Rating. A P5 (V) pendulum classification, (AS 4586) "New surfaces" is the highest wet pendulum classification available under the current standards. For pool surrounds, a minimum of P4 is required.

For pool surrounds, a minimum of P4 is required.
