Light Grey Granite

Description

This low-key speckled natural beauty provides a light, clean, fresh base allowing all that surrounds to shine and pop. Free from pretence and with nothing to prove!

Why Choose Light Grey Granite?

Light Grey Granite is a wonderful choice for pool surrounds and landscaping. It is a dense and tough stone that will look great for many years to come. It is highly slip resistant. Its cool tone offers a sleek, clean, urban look. Since grey is a neutral colour you can mix and match this product with any colour scheme and achieve an up market and integrated look. It is accurately sized, cuts well and is easy to lay. There is minimal variation from tile to tile. The tiles contain a small amount of mica which sparkles in the sunlight.

Finish

Flamed

Maintenance

Minimal. Seal with penetrating sealer to make cleaning easier.

Slip Rating (Wet Pendulum)

This tile has a P5 slip rating in the (V) pendulum classification which is the highest wet pendulum rating available under the current standards. (For pool surrounds, a minimum of P4 is required.)
