

SS500 Kosciuszko

Panel Size

550x200mm

Resistance is futile. This gorgeous chunky granite stacked stone is extraordinarily popular due to its neutral colouring which blends greys and wheat browns so tastefully. Although providing a wall cladding option of substance it is also capable of blending in with its surrounding. A favoured choice for many prominent external stone cladding projects including grand entrances, sophisticated fireplaces, and magnificent garden walls.

Kosciuszko stacked stone is a wall-to-wall class act!
